DOORS | WINDOWS | SHOWERS | SECURITY GATES | COMMERCIAL

PURPOSE MADE OPTIONS & SIZES ARE AVAILABLE ON ALL PRODUCTS

As a leading supplier of quality aluminium installations, Open View Aluminium & Glass is widely respected for its highly professional approach and steady emphasis on service excellence.

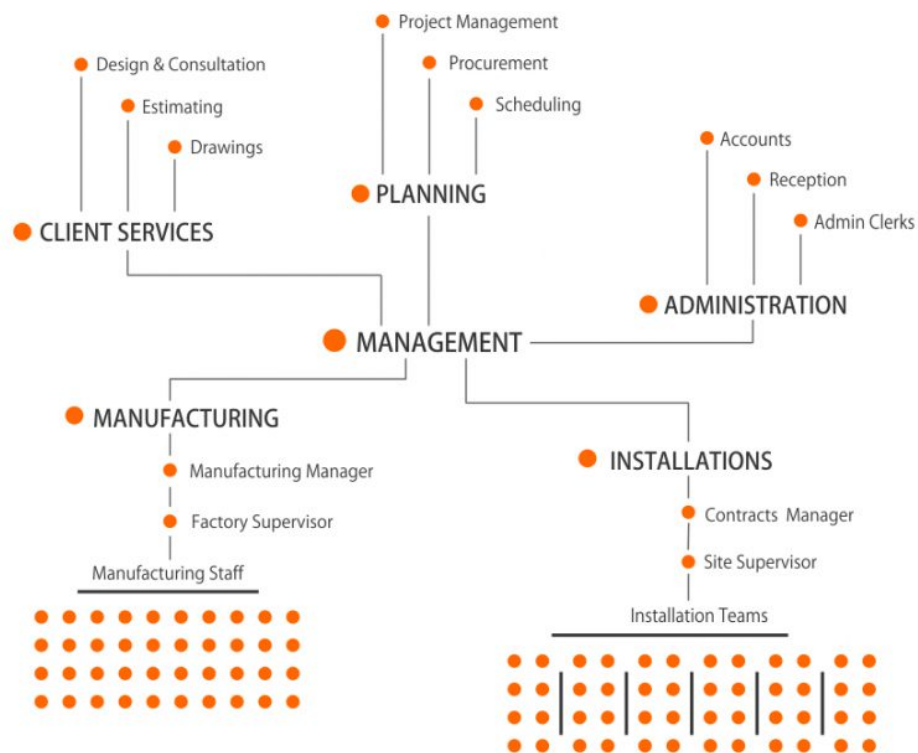

Established in 2010, and due to our customer-oriented focus and dedication to offering a superior service, we have grown steadily over the years.

We develop tailor-made solutions for commercial and industrial projects, as well as residential sites, with a full service offering from consultation and design, through to manufacturing and expert installation.

Whilst most of our clients and projects are in Gauteng Province in South Africa, we have over the years built key relationships across Southern Africa, and often carry out key projects in other countries.

Our workshop in Midrand is the hub of all our operations, and a place of great synergy amongst our management, office staff and our manufacturing and installation teams.

In the first quarter of 2020, we opened our new workshop in Bulawayo to strengthen our footprint in Zimbabwe, which has one of the fastest growing housing markets in the region.

Our Core Values

Our core values at Open View Aluminium & Glass are professionalism, reliability and service excellence. We believe it is this approach that has earned us a loyal customer base, the respect of our peers, as well as exponential growth since our inception.

Our Vision & Mission

Our mission and vision is to deliver exceptional value to the construction industry in South Africa and Zimbabwe in particular, while expanding our footprint across Southern Africa, by providing superior quality aluminium products, supported by unrivalled service.

In order to fulfil this, we aim to continually expand on our expertise, grow in our capacity and stay at the forefront of technological and industry innovations, while growing and nurturing our team to stay on the path of professionalism and excellence.
